Vinification: The various components of this wine were vinified separately. The Cabernet Sauvignon & Shiraz components were crushed, de-stemmed, chilled and the free run juice separated from the skins immediately. The juice was clarified and fermentation conducted in closed stainless steel vessels. Prior to bottling the blend was assembled to achieve the style required

Oak Maturation: Unoaked to retain varietal flavours.

Assessment: Bursting with fruit flavour and long on the palate. This wine is fresh and lively with terrific cleansing acidity. Mouth filling fruit salad flavours with gentle sweetness make this wine attractive for early drinking.
